

# WHAT ARE INVASIVE SPECIES?

**Invasive species are non-native plants and animals introduced to an ecosystem. These species have the ability to expand their range and can cause negative environmental, social and economic impacts**

# WHAT CAN I DO TO HELP?

- **Plant Wise: choose non-invasive alternatives**
- **Do Not Compost Invasives: double bag and take them to the landfill**
- **Play Clean Go: clean all boots and equipment**
- **Report All New Invasives: prevention is key**
